

Technologies and Emerging skills Survey 2023

Thamiz Arasan R

28-Nov-2023

OUTLINE

- Executive Summary
- Introduction
- Methodology
- Results
 - Visualization – Charts
 - Dashboard
- Discussion
 - Findings & Implications
- Conclusion
- Appendix

EXECUTIVE SUMMARY

- Data contextualization and analysis goal.
- Methodology description.
 - Data gathering.
 - Data analysis.
 - Data visualizations.
- Results presentation supported with graphs and trends.
- Discussion of overall findings and implications regarding the results previously exposed.
- Final conclusions of the carried out research.

INTRODUCTION

- Technologies and Emerging Skills Survey is the largest and most comprehensive survey of people who code around the world.
- Results don't represent everyone in the developer community evenly.
- Nearly 90,000 developers.
- Trends to predict where the developers are going.
- Characterization of developers around the globe.

METHODOLOGY

- Collect survey data & explore its content
 - Web Scraping.
 - APIs.
 - Request library.
- Data Wrangling
- Exploratory data analysis
 - Analyzing data distribution.
 - Handling outliers.
 - Correlations.
- Data Visualization
 - Highlight distribution of data, relationships, the composition and comparison of data.
- Dashboards

RESULTS

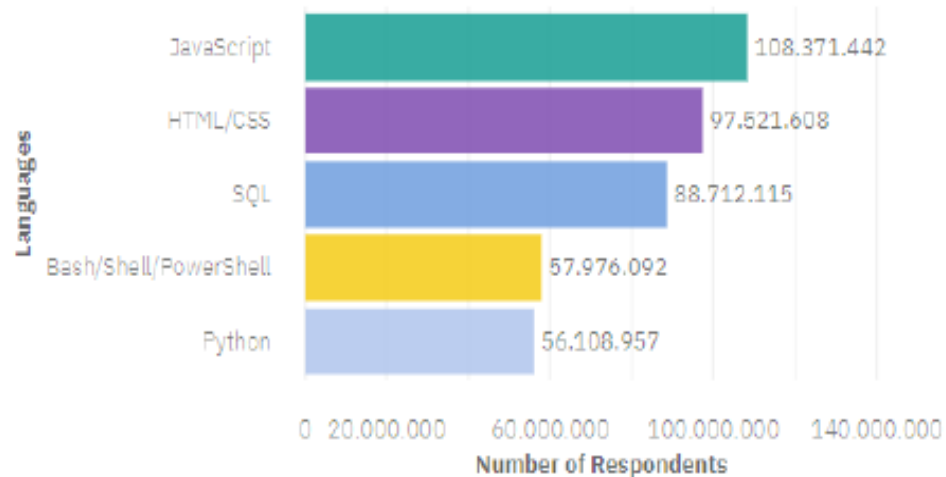

- Programming language, Technologies trends and comparison.
- Database scope and trends.
- Job posting distribution on Age.
- Future scope of programming skills.

PROGRAMMING LANGUAGE TRENDS

Current Year

Next Year

Top 5 Programming Language Experience

Top 5 Desired Language to Learn

PROGRAMMING LANGUAGE TRENDS - FINDINGS & IMPLICATIONS

Findings

- JavaScript seems to keep as leading language.
- Python fastest-growing.
- Great interest in TypeScript

Implications

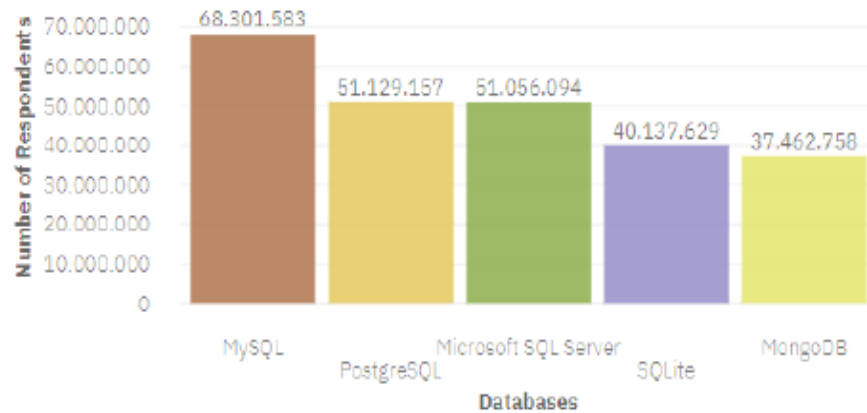

- Possible developers migration from JavaScript to TypeScript.
- Possible of demand creation in JavaScript in Near future.

DATABASE TRENDS

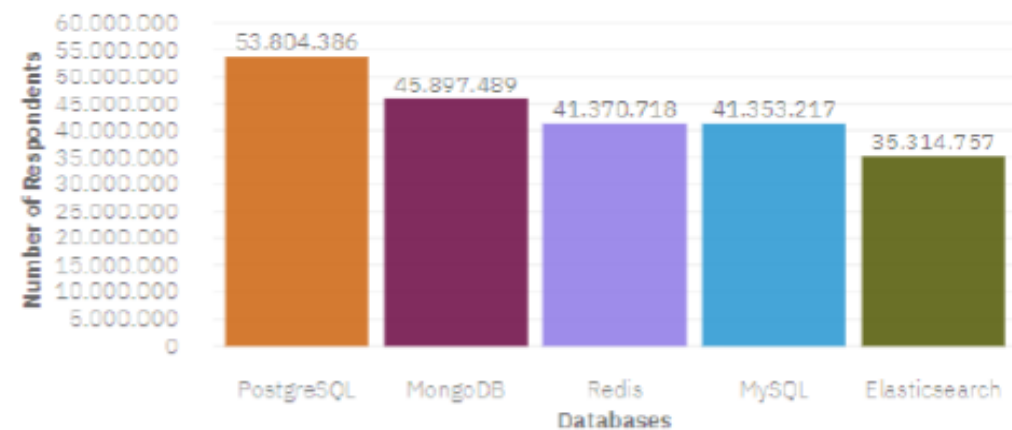

Current Year

Next Year

Top 5 Databases Worked with

Top 5 Desired Database to Learn

DATABASE TRENDS - FINDINGS & IMPLICATIONS

Findings

- MySQL as most used database.
- Lack of interest in Microsoft SQL Server and SQLite.
- Increasing interest in PostgreSQL and MongoDB.
- New technology database are emerging.

Implications

- Microsoft SQL Server and SQLite losing ground in the market.
- PostgreSQL and MongoDB establishment in the market.
- Increase in demand for MongoDB.

DASHBOARD

[dashboard/6-Dashboard-with-Cognos.pdf at 30a3a32d386e805310f5775f4037fae9291ae210 · Thamiz08/dashboard \(github.com\)](#)

DEMOGRAPHIC DISTRIBUTION

DEMOGRAPHICS

Respondent by Gender

Respondent by Age

Respondent Locations

Formal Education Level / Gender

DISCUSSION

- Current technology trends helps in finding out the demands in market.
- Future trends may predict the scope of the skills, usage and emerging skills.
- Demographic distribution of developers and skills predict the availability of growth and possibility of technology boost.

OVERALL FINDINGS & IMPLICATIONS

Findings

- Python, JavaScript widely used and TypeScript getting popular.
- Over 90% young male developers.
- Developers mostly located in developed countries.

Implications

- JavaScript and TypeScript web frames gaining followers.
- Global polarization of developers location and gender.
- Young developers without postgrad studies on its majority.

CONCLUSION

- Developers are people with very marked characteristics.
- A good idea of popularity trends of different tools, platforms and languages can be obtained.
- There is a job to be done to spread accessibility of this labor market to countries in development.
- It boost the economy as the distribution are along with the demographic dividend range.

APPENDIX

- Job Posting Distributions.
- Popular Language Analysis.

JOB POSTINGS

JOB POSTING DISTRIBUTION

- From the plot its clear that job postings are distributed between the younger and middle aged persons.
- In the range 25 to 35 larger job posting opportunities are available.

POPULAR LANGUAGES

POPULAR SKILL LANGUAGES ANALYSIS

- Larger developers or technical persons depend on swift, python, c++ programming languages.
- There is an equal opportunity in Java as well. People might change their skill set based on the demand in the market in future.
